

**PROACTIVE RISK MANAGEMENT BY
THE INTRODUCTION OF THE
DEFENDER/ANTI SLASH MESH**

THEFT FROM MOVING OR PARKED
CARGO VEHICLES IS A UNIVERSAL
PROBLEM, AND WE HAVE, WHAT WE
BELIEVE, IS THE ANSWER TO STOP
CARGO CARRIER THEFT AT THE MOST
AFFORDABLE PRICE IN THE MARKET!

WHY SHOULD YOU CONSIDER A DEFENDER/ANTI SLASH MESH?

- It is a fact, that many covered Cargo Vehicles and trailers, light or heavy duty, are subjected to cargo theft.
- Typically the tarpaulins are cut open, goods unloaded and then removed from Tautliners and Flat Decks.
- Cargo theft can happen with alarming regularity and can occur when the vehicles are in motion or parked and happen in full view of the public during broad day light.
- The cost to Cargo theft in the Cargo Industry, the Insurance Industry and the Retail Industry is substantial and an increasing problem.
- Damage is done to the PVC tarpaulin, and the cost for repair and loss of very expensive cargo, insurance premiums asre high to excess and can cost up hundreds of thousands of Rands.
- Defender/Anti Slash Mesh is extremely difficult to cut, if not impossible.
- Tests had shown that all kinds of knives, serrated or plain, scissors, hand saws, Stanley knives, has failed to cut the Defender/Anti Slash Mesh.
- The Defender/Anti Slash Mesh cannot be easily cut due to the snag yarns and the high tensile reinforcing elements in its design.
- The Defender/Anti Slash Mesh can be installed on your exiting tarpaulins and new tarpaulins to help you secure the Cargo.
- The Defender/Anti Slash Mesh can response to theft, Vandalism and accidental damage of PVC Tarpaulin.
